

Pellon Press Release

Summer brings about new beginnings, cleansing rains, budding flowers, chirping birds and even FRESH NEW IDEAS! PELLON will bring fresh new ideas to you each month. Our ideas will inspire you to be creative and have fun with our various products. They include ideas from window treatments, quilting, table centerpieces to unique bridal head pieces.

Below is just a few of Pellon products that can be used for your special projects: Pellon Decor Bond: This is an iron on product, that adds strength & body. It should be applied with a dry iron. Pellon Peltex Products (Peltex70, 71 & 72): Pellon Peltex is ultra firm, smooth and a resilient stabilizer. It's easy to cut with scissors or a rotary cutter. Pellon Peltex has no grain, allowing it to cut in any direction. Use Peltex in place of cardboard or foam core for boxes, cornices, folders & frames. Pellon Natural One: The unique process of needle punching creates both softness and strength. The batting won't bunch, shift or tear in handling, even after repeated gentle washings. *With any of Pellon products we suggest always pre-test on a scrap of your fashion fabric.

Please feel free to contact us with questions or comments.

Continue to check for future FRESH NEW IDEAS! KEEP PRESSING!!!
